Summary

Governor Snyder's FY 2012-13 and FY 2013-14 Budget Summary of Recommendations

On February 9, 2012, Governor Rick Snyder presented his fiscal year (FY) 2012-13 State Budget Message and his budget projections for FY 2013-14. Pursuant to an Attorney General's letter opinion issued on February 9, 2011, the Governor is allowed to propose a two-year budget and the Legislature can enact a two-year budget but the second year would be only an expression of an "intent to appropriate", not binding or legally enforceable. This summary will focus on Governor Snyder's FY 2012-13 appropriation recommendations.

The FY 2012-13 budget recommendation from the Governor is based on the consensus revenue estimates agreed to on January 13, 2012. The FY 2012-13 General Fund/General Purpose (GF/GP) consensus revenue estimate is \$9.0 billion. This represents a 0.04% increase from the FY 2011-12 GF/GP consensus revenue estimate. The School Aid Fund (SAF) consensus revenue estimate is \$11.1 billion, a 2.7% increase from the FY 2011-12 consensus revenue estimate. There are no new taxes proposed as part of the FY 2012-13 budget but there are fee adjustments totaling approximately \$86.5 million.

The Governor recommended FY 2012-13 Adjusted Gross appropriations of \$48.1 billion. Included in this appropriation total are \$20.0 billion of Federal funds, \$513.2 million of local and private funds, \$18.5 billion of State Restricted revenue, and \$9.0 billion of State GF/GP revenue. Table 1 and Figure A outline the sources of funding for each department and budget area included in the Governor's recommendation. Compared with FY 2011-12 year-to-date appropriations, the Governor's FY 2012-13 budget includes an Adjusted Gross appropriation increase of \$919.6 million or 2.0%, an increase in State Spending from State Resources appropriations of \$480.4 million or 1.8%, and an increase in GF/GP appropriations of \$393.9 million or 4.6%.

One of the reasons for the year-over-year increases in most budget areas is that the FY 2011-12 appropriation base does not include the pending supplemental appropriation for Other Post-Employment Benefit (OPEB) costs that was part of the budget agreement for FY 2011-12. The approximately \$200.0 million FY 2011-12 OPEB appropriation would begin to prefund retiree health care costs for the State Employees' Retirement System. If this supplemental is enacted, the total recommended FY 2012-13 Adjusted Gross, State Spending from State Resources, and GF/GP appropriation percentage increases over FY 2011-12 with OPEB appropriations in the base, are 1.4%, 1.1%, and 2.9%, respectively. Tables 2 - 4 compare the Governor's FY 2012-13 recommendation for Adjusted Gross, State Spending from State Resources, and GF/GP appropriations with the FY 2011-12 appropriations that have been adjusted for the OPEB supplemental funding.

The funding increases for FY 2012-13 include appropriations that the Governor has designated as either "ongoing" or "one-time". Table 5 outlines the one-time appropriations recommended by the Governor for FY 2012-13. In addition to \$449.4

million in one-time Adjusted Gross appropriations for State departments, there is a one-time appropriation of \$130.0 million for the Budget Stabilization Fund, for total one-time Adjusted Gross appropriations of \$579.4 million, or 1.2% of the total Adjusted Gross appropriations. The Governor's recommendation of \$525.2 million for one-time GF/GP appropriations equates to 5.8% of the total GF/GP spending proposed for the FY 2012-13 budget.

The total GF/GP dollar change from FY 2011-12 to the Governor's recommendation for FY 2012-13 is an increase of \$393.9 million. This \$393.9 million increase is the sum of \$584.9 million in funding for new or expanded programs, funding reductions of \$656.3 million, funding shifts that increase GF/GP by \$97.5 million, and the recognition of \$367.9 million in OPEB appropriations as a combination of "cash basis" for current retirees and prefunding for future retirees. The largest GF/GP funding increases in the FY 2012-13 Governor's budget include \$119.0 million in the Department of Transportation to enable the State to meet its Federal match requirements, followed by \$50.0 million in the Department of Technology, Management, and Budget for targeted technology upgrades based on information from a study currently being conducted to provide an inventory of risks. The Governor's budget also includes \$23.2 million in new GF/GP funding in the Departments of Attorney General, Corrections, and State Police for his soon-to-unveiled public safety initiative. Both the Department of Community Health and the K-12 School Aid recommendations reflect essentially continuation budgets, while 3.0% increases are provided for community colleges and universities.

The FY 2012-13 recommended level of full-time equated (FTE) positions is 53,178.7, which is 1,651.0 positions or 3.0% lower than FY 2011-12.

Similar to the first budget that Governor Snyder presented in February 2011, the Governor's second budget message includes performance measures for State programs. The Governor again proposes to roll-up many line items in each budget area and to eliminate most legislatively initiated boilerplate language. The consolidation of line items and the elimination of boilerplate language would provide more flexibility for the Executive branch but also would greatly reduce the Legislature's oversight role.

Fee Proposals

Proposed Fee Adjustments

The FY 2012-13 budget proposes \$86.5 million in total fee adjustments. Of the total fee changes proposed, \$4.1 million would be derived from new fees or fee increases, while \$82.4 million would come from the delay of 59 sunsets in fee legislation that would allow fees to be maintained at their current levels. The bulk of the fee adjustments are in the Departments of Environmental Quality, Licensing and Regulatory Affairs, Natural Resources, and State Police. Table 13 provides a summary of the proposed fee changes.

Table 13

FY 2012-13 GOVERNOR'S RECOMMENDATION PROPOSED FEE ADJUSTMENTS INCLUDED IN BUDGET (Actual Dollars)		
Department	Fee Type	Estimated Revenue
<u>Fee Increases and New Fees</u>		
Environmental Quality	Non-Agric. Large Water Withdrawal	\$119,500
Environmental Quality	Agric. Large Water Withdrawal (New)	528,800
Licensing & Regulatory Affairs	Fire Service Fee - Ops. & Maintenance	40,000
Licensing & Regulatory Affairs	Fire Service Fee - Plan Review	545,000
Natural Resources	Off-Road Vehicle License	2,000,000
Natural Resources	Duplicate Safety Certificate (New)	70,400
Natural Resources	Shooting Range Fees (New)	50,000
State	Commercial Driver License	750,000
Subtotal New and Increased Fees		\$4,103,700
<u>Maintenance of Current Fee Levels</u>		
<u>Fee Sunsets - Fee Reductions</u>		
Agriculture & Rural Development	Nursery/Plant Growers Fees (two fees)	250,000
Agriculture & Rural Development	Pesticide Applicator Fees (two fees)	100,000
Agriculture & Rural Development	Livestock Dealer Fees (four fees)	21,000
Licensing & Regulatory Affairs	Corporation Fees (three fees)	5,166,100
Licensing & Regulatory Affairs	Securities Fees (five fees)	5,803,300
Licensing & Regulatory Affairs	Construction Code Exam Fees (four fees)	899,700
Licensing & Regulatory Affairs	Construction Code License Fees (14 fees)	1,843,600
Licensing & Regulatory Affairs	Occupational Licensing Fees (22 fees)	2,517,700
Subtotal Fee Sunsets		\$16,601,400
<u>Fee Sunsets - Fee Eliminations</u>		
Environmental Quality	Refined Petroleum Fund	51,800,000
State Police	Fingerprint Fee	9,000,000
State Police	Name-Based Criminal Record Check	5,000,000
Subtotal Fee Sunsets		\$65,800,000
Subtotal Maintenance of Current Fee Levels		\$82,401,400
TOTAL ALL FEE ADJUSTMENTS		\$86,505,100

Major Budget Areas Appropriation Summaries

Community Colleges and Higher Education Recommendations

Community Colleges

The Governor's FY 2012-13 recommendation includes a 3.0% increase, \$8,516,400 GF/GP, distributed through a new formula based on a three-year average of student degree completions in critical skill areas (science, technology, engineering, mathematics, and health fields). The budget also includes an additional \$1,733,600 from the School Aid Fund to partially offset Michigan Public School Employee Retirement System retiree health care cost increases.

Higher Education

The Governor's FY 2012-13 recommendation includes a 3.0% funding increase, \$36.2 million GF/GP, allocated through four formulas based on successful outcomes and tuition restraint. To be eligible for the performance funding, public universities would have to participate in the Michigan Transfer Network. Metrics include the three-year average growth of undergraduate completions, three-year average completions in critical skill areas (science, technology, engineering, mathematics, and health fields), the number of undergraduates receiving Pell Grants, and tuition restraint. The budget removes \$1.9 million GF/GP in one-time FY 2011-12 appropriations. Funding for the MSU Facility for Rare Isotope Beams is included in ongoing appropriations instead of one-time funding at \$2.3 million GF/GP. The Governor includes an additional \$446,200 from the School Aid Fund to partially offset Michigan Public School Employee Retirement System retiree health care cost increases. For student financial aid, the Governor includes new reporting requirements for private colleges to be eligible for Tuition Grant funding and reduces funding for the Tuition Incentive Program and Tuition Grants by \$1.0 million (Federal) each, to fund a \$2.0 million (Federal) increase for State Competitive Scholarships.

Capital Outlay

The Governor's FY 2012-13 budget includes construction authorizations for 18 of the 20 college and university projects that received planning authorizations under Public Act 329 of 2010. The two excluded were Macomb County Community College and Lake Superior State University. Neither institution was ready to proceed at this point in time.

The Governor's recommendation also includes major changes to the capital outlay process that will require amendments to the Management and Budget Act (1984 PA 431) and the State Building Authority Act (1964 PA 183). The proposed process reforms include consolidating the planning authorization, construction authorization, and State Building Authority lease approval into a single bill. Institutions would be required to submit professionally developed schematic plans as the basis for capital outlay requests. A new evaluation process would recognize the merits of projects that support statewide economic development goals, focus on core academic and critical skill programs, re-invest or adaptively re-use existing facilities, demonstrate efficient utilization of existing facilities and support sustainable design.

¹⁾ FY 2010-11 Fiscal-Year-Equated Students (FYES). ²⁾ Previously included in one-time appropriations at \$1,200,000.

Department of Community Health Recommendations

For the most part, FY 2012-13 is a continuation budget, without the sort of major changes (mostly reductions) proposed in 2011. The GF/GP funding decreases from \$2.94 billion in FY 2011-12 to \$2.84 billion, but that decrease is caused by the expiration of the Health Maintenance Organizations/Prepaid Inpatient Health Plans (HMO/PIHP) Use Tax on April 1, 2012. The State must cover the FY 2011-12 cost of that tax for the HMOs/PIHPs, so removal of that funding in FY 2012-13 and recognition of full year health claims tax revenue reduces GF/GP spending by \$167.3 million, more than the proposed \$104.0 million GF/GP reduction.

The Medicaid match rate will increase from 66.14% to 66.39% in FY 2012-13, saving about \$25.7 million GF/GP.

The overall Medicaid caseload is projected to increase to about 1.9 million cases. The cost of Medicaid due to caseload, utilization, and inflation is projected to increase by \$110.4 million Gross, \$44.7 million GF/GP. The Governor's budget also includes \$75.1 million Gross, \$25.3 million GF/GP to cover the cost of paying actuarially sound rates to Medicaid managed care organizations.

The FY 2011-12 budget included several significant one-time funding items: \$3.0 million for community mental health (CMH) special populations (multicultural), \$3.0 million for the Healthy Michigan Fund, \$300,000 for clinics on Beaver, Drummond, and Mackinac Islands, \$17.1 million to reduce the Graduate Medical Education (GME) cut from 18.9% to 8.7%, and \$29.5 million for a one-time rural and sole community hospital pool.

No funding for these items is included in the Governor's proposed FY 2012-13 budget. This means that the GME funding would be cut by \$17.1 million (\$5.8 million GF/GP), or about 11.2% from the total funding for FY 2011-12. The Governor's FY 2012-13 budget includes total GME funding of \$136.3 million, \$45.8 million GF/GP.

While the FY 2011-12 one-time funding initiatives would not be continued, the Governor's budget would fund new one-time initiatives, including \$5.0 million Gross and GF/GP for health and wellness initiatives and \$40.0 million Gross, \$4.0 million GF/GP for federally mandated updates to the Medicaid computer system.

Other than the removal of one-time funding, there are no significant programmatic cuts in the Governor's proposed budget. There are proposals to hire vendors to help increase recoveries from providers and third party insurers, with assumed savings of \$28.0 million Gross, \$9.4 million GF/GP. There are also initiatives to increase Inspector General staffing and encourage evidence-based prescribing for behavioral health drugs.

The Governor proposes that urgent care centers be enrolled as Medicaid providers to help reduce the use of emergency departments. The Governor also proposes encouraging physicians to administer generic injectable drugs instead of brand name drugs to Medicaid clients. These are usually cancer medications, often chemotherapy, administered in the physicians' offices. Due to Federal and State law, the State cannot mandate the use of generics. Modest savings of \$2.0 million Gross, \$0.7 million GF/GP are assumed.

Under the Federal health reform law, states must increase their primary care payment rates for Medicaid services to 100% of the Medicare payment rate in 2013. Presently Medicaid physician services are reimbursed at about 55% of Medicare. This increase would be totally funded by the Federal government, but would only be required (and funded) only during 2013 and 2014. The budget would increase \$281.8 million Gross and Federal to cover this mandate.

The Governor's budget also proposes a four-year phase-in to expand the Healthy Kids Dental program statewide, with 25% of those not covered added each year (about 180,000 children per year). At present the program is not available in 18 counties, including the three metro-Detroit counties. No decisions have been made on which counties to cover. The cost of the first-year expansion would be \$25.0 million Gross, \$8.4 million GF/GP.

The Governor's budget would require that Medicaid and MICHild cover autism therapy services. The budget assumes that 2,000 children under the age of six would be covered, at a cost of \$34.1 million Gross, \$10.1 million GF/GP.

The budget would expand the number of transfers from nursing homes to community-based services by about 100 people and add \$11.0 million to expand the Home and Community-Based Waiver program and remove more people from the program's waiting list. The net cost would be \$7.5 million Gross and \$3.4 million GF/GP.

The Governor's budget includes a proposed FY 2011-12 supplemental to restore a number of programs. These programs are also proposed for funding in the Governor's FY 2012-13 budget and include restoration of the Wayne State Psychiatric Residency disproportionate share hospital (DSH) payment, full restoration of DSH payments to primary care clinics, restoration of Medicaid chiropractic services, and restoration of funding for the traumatic brain injury pilot programs.

Department of Corrections Recommendations

The FY 2012-13 Department of Corrections budget proposed by the Governor provides an increase of 6.6% in Gross appropriations and a 5.7% increase in GF/GP funds relative to the FY 2011-12 budget. Those percentages correspond to absolute increases of \$128.0 million in Gross appropriations and \$107.3 million in GF/GP funding. These amounts include \$14.4 million (\$14.0 GF/GP) in one-time increases, which primarily consist of lump-sum payments of 1% or 2%. Looking at only the ongoing expenditures, the increases in appropriations would be \$113.6 million Gross and \$93.3 million GF/GP.

The primary driver of the increase is economics and Other Post-Employment Benefits (OPEB). Department economics is decreased by \$84.0 million Gross, \$81.7 million GF/GP, while the OPEB FY 2011-12 supplemental and FY 2012-13 OPEB increases add \$198.3 million Gross, \$193.3 million GF/GP. This yields a net increase of \$114.3 million in Gross appropriations, \$111.6 million GF/GP.

The budget calls for a net reduction in FTEs of 644.6. Three major items account for most of this: 115.0 FTEs are removed from Field Operations due to a 9.0% drop in caseload; 114.0 FTEs are removed due to reduced use of Alert Response Vehicles; and the closure of the Mound facility in January 2012 allows for a reduction of approximately 324.0 FTEs (mostly security staff, but also education personnel and nurses).

The budget adjusts for unrealized savings of approximately \$10.0 million, which is the result of the Department's being able to save \$21.0 million in association with the Cost Effective Housing Initiative, but not the full \$31.0 million in savings called for in the FY 2011-12 budget. Other noteworthy increases include \$3.5 million for postclosure facility maintenance; \$4.5 million from the Public Safety Initiative to alleviate jail crowding in high-crime areas, and the Neal, et al. legal settlement, which increases by \$5.0 million under the structure of the agreement.

Several other smaller spending items represent investments in technology, either to increase safety or for administrative efficiency. Examples include \$2.4 million for information technology system maintenance, \$0.6 million for digital x-ray machines, and \$19.2 million for cell phone detectors and jammers, security cameras, and personal protection devices.

Public Safety Initiative

During the Governor's FY 2012-13 budget presentation, Governor Snyder announced that he will present a special message on public safety in March 2012. Included in the Governor's FY 2012-13 budget is total funding of \$23.2 million that appears to be related to this public safety initiative. New public safety appropriations are recommended for the following departments:

- **Attorney General:** \$900,000 to contract for special attorneys general to prosecute outstanding warrants in distressed cities.
- **Corrections:** \$4.5 million to alleviate the need for jail space in high crime areas by purchasing jail space in other counties.
- **State Police:** \$15.0 million for law enforcement enhancement (which would provide sufficient funds to train and hire over 100 new State troopers) and \$2.8 million for patrol and investigative services in high-risk urban areas.

Revenue Sharing Payments

The Governor recommended \$1,071.7 million in funding for revenue sharing payments in FY 2012-13, an increase of \$44.2 million or 4.3% over estimated FY 2011-12 funding. Of the total for Revenue Sharing, approximately \$711.1 million is for constitutionally required per-capita payments to cities, villages, and townships; \$210.0 million continues funding for the Economic Vitality Incentive Program (EVIP) for eligible cities, villages, and townships at the FY 2011-12 level; \$125.6 million is for a new incentive-based program for eligible counties; and \$25.0 million includes a \$20.0 million expansion of the Competitive Grant Assistance Program for local governments involved in cooperation or consolidation projects.

Constitutional revenue sharing is projected to increase from \$697.5 million in FY 2011-12 to \$711.1 million in FY 2012-13, an increase of \$13.6 million or 2.0%. The Constitution requires that 15.0% of the revenue from the sales tax levied at 4.0% be distributed to cities, villages, and townships on a per-capita basis.

The Governor recommended continuing EVIP at \$210.0 million. In FY 2011-12, this program was funded by \$195.0 million in ongoing appropriations and \$15.0 million in one-time funding. For FY 2012-13 the Governor's proposal would appropriate all funding for EVIP as ongoing. Eligibility for EVIP payments would be the same as in FY 2011-12, although incentive requirements would be revised.

For FY 2012-13, the Governor recommended eliminating statutory revenue sharing for counties and replacing it with an incentive program similar to EVIP. Total funding available to eligible counties would increase from \$115.0 million in FY 2011-12 to \$125.6 million in FY 2012-13, an increase of \$10.6 million or 9.0%; however, the total funding available would be less than that required by the Glenn Steil State Revenue Sharing Act and FY 2012-13 funding would be distributed on an incentive basis instead of through the formula. Under the Act, counties fall into two groups: 1) those that have exhausted their revenue sharing reserve funds (funds that were created by the acceleration of property tax payments in FY 2004-05) and are eligible for State payments; and 2) those that are still drawing the allowable amounts from their revenue sharing reserve accounts. Whether a county is still drawing from its revenue sharing reserve account depends on the county's reliance on revenue sharing relative to property taxes as a part of its budget in FY 2003-04. In FY 2011-12, 50 counties received county revenue sharing payments. In FY 2012-13, an additional 11 counties are projected to exhaust their reserve accounts and re-enter the revenue sharing formula. Under the formula, those 61 counties would receive an estimated \$167.6 million in FY 2012-13. The appropriation recommended by the Governor would be \$42.0 million under the formula amount. Counties that met all of the incentive requirements would receive approximately 74.9% of the formula amount, compared to an estimated 75.8% of the formula amount in FY 2011-12.

In FY 2011-12, \$5.0 million was available for consolidation grants that were awarded to eligible cities, villages, townships, and counties through a competitive process. The Governor recommended increasing funding for the program to \$25.0 million in FY 2012-13, with the addition of \$20.0 million in one-time funding.

Table 16

REVENUE SHARING APPROPRIATION SUMMARY				
	FY 2011-12	FY 2012-13 Gov's Rec.	Dollar Change	Percent Change
Constitutional Revenue Sharing	\$697,500,500	\$711,119,700	\$13,619,200	2.0%

Competitive Grant Assis. Program	5,000,000	25,000,000	20,000,000	400.0%
Total	\$1,027,500,500	\$1,071,719,700	\$44,219,200	4.3%

School Aid Recommendations

Table 17 illustrates the various ways the Governor's School Aid budget recommendations for FY 2011-12 and FY 2012-13 may be viewed. The bolded figures correspond to the figures presented by the Governor during the briefing on February 9, 2012.

Table 17

Fiscal Year	Gross Appropriation	State Spending
FY 2011-12 Initial including one-time	\$12,659,072,900	\$11,005,741,100
FY 2011-12 Initial excluding the \$133 million for MPERS reforms.....	12,526,072,900	10,872,741,100
FY 2011-12 Revised for CREC	12,740,007,800	11,081,976,000
FY 2011-12 Revised for CREC excluding the \$133 million for MPERS reforms.....	12,607,007,800	10,948,976,000
FY 2012-13 Governor's Rec. including one-time ...	12,687,014,800	10,985,973,400
Change to FY 2011-12 Initial.....	\$27.9 million or 0.2%	-\$19.8 million or -0.2%
Change to FY 2011-12 Initial excluding the \$133 million for MPERS reforms.....	\$160.9 million or 1.3%	\$113.2 million or 1.0%
Change to FY 2011-12 Revised Rec.....	-\$53.0 million or -0.4%	-\$96.0 million or -0.9%
Change to FY 2011-12 Revised Rec. excluding the \$133 million for MPERS reforms.....	\$80.0 million or 0.6%	\$37.0 million or 0.3%

Overall, Gross spending in the Governor's recommendation for the FY 2012-13 budget is \$53.0 million less than the Consensus Revenue Estimating Conference (CREC)-adjusted level for FY 2011-12, or, if compared to initial levels, the budget is \$27.9 million above year-to-date appropriations, excluding the CREC supplemental. The FY 2012-13 budget includes no change for the foundation allowance. The budget does, however, reclassify as ongoing funding \$205.0 million in what had previously been one-time funding. Specifically, \$155.0 million in reimbursement for retirement costs is continued, along with \$50.0 million of the \$154.0 million set aside in FY 2011-12 for best practices grants. A further \$140.0 million in best practices and performance funding is included for FY 2012-13, but it is classified as one-time funding. An additional \$24.0 million in Michigan Public School Employees' Retirement System (MPERS) reimbursement is included, and intended as ongoing funding. The budget also includes two new programs: \$10.0 million for consolidation innovation grants (one-time funding) and \$1.75 million for training of principals in the area of teacher evaluations. The \$133.0 million appropriation in FY 2011-12 for MPERS reforms is not continued in FY 2012-13.

To put the above numbers in perspective for schools, Table 18 focuses only on the net programmatic changes. As shown in Table 18, the budget includes \$36.0 million in additional best practices/performance funding grants (above FY 2011-12 levels), \$24.0 million in additional MPERS reimbursement, \$3.9 million in additional reimbursement for data reporting costs, and a new one-time \$10.0 million appropriation for competitive consolidation grants, for a total of \$73.9 million in enhanced programmatic funding

compared to FY 2011-12. There are also some offsets to these programmatic increases. Items identified in FY 2011-12 as one-time that are discontinued in FY 2012-13 include the myriad district-specific foundation adjustments and class-size grants (which had been funded at 50% levels in FY 2011-12), totaling \$17.5 million in reductions. Also eliminated for FY 2012-13 is a \$700,000 appropriation to reimburse districts that experienced reductions in local revenue when the Michigan Business Tax was enacted and tax breaks were given on industrial and commercial personal property, scheduled for elimination after FY 2011-12. Finally, the budget includes \$50.0 million in State savings from the already-enacted change in FY 2012-13 for kindergarten funding. For districts that continue to operate half-day programs in the upcoming year, funding will be one-half of a foundation allowance, rather than full-foundation funding as previous law had provided. Combining both the programmatic enhancements and the reductions, the net programmatic changes total a positive \$5.7 million.

State Employee Compensation Changes

Article XI, Section 5 of the Michigan Constitution provides that increases in the rates of compensation authorized by the Civil Service Commission require prior notice to the Governor, who then transmits the increases to the Legislature as part of the overall budget recommendation. Within 60 calendar days following such transmission, the Legislature, by a two-thirds vote of the members elected and serving in each house, may reject or reduce increases in the rate of compensation authorized by the Civil Service Commission. Reductions made by the Legislature must apply uniformly to all classes of employees and cannot adjust pay differentials already established by the Civil Service Commission. Rates of compensation also cannot be reduced below those in effect at the time the increases are transmitted to the Legislature.

The FY 2012-13 recommendation includes the Civil Service Commission-approved FY 2012-13 agreement for employees who are exclusively represented by employee unions (AFSCME, MCO, MSEA, SEIU, and UAW). The Commission approved a 1.0% general wage increase and a 1.0% lump-sum payment effective October 1, 2012, for represented employees. Additionally, the contracts require represented employees to pay 20.0% of their health care premiums, up from the current 10.0% requirement.

The Civil Service Commission also adopted a Coordinated Compensation Plan for non-exclusively represented State classified employees (NEREs) for FY 2012-13. Beginning on October 1, 2012, NEREs will receive a 3.0% general wage increase and a 2.0% lump-sum payment. NEREs also will be required to pay an employee share of health insurance premiums of 20.0%, rather than 10%, of total premium cost.

Table 19 provides a summary of the incremental State employee cost increases recommended in the Governor's budget, including employee salary increases. In addition, the State's portion of the cost of employee health insurance is estimated to decrease by 5.0% due to the new requirement for all State employees to pay 20.0% of their premiums. This employee insurance cost decrease saves an estimated \$33.8 million Gross and \$16.8 million GF/GP. The amount that needs to be contributed to the State employee retirement systems in FY 2012-13 results in significant cost decreases in the FY 2012-13 budget. Retirement contribution decreases will total \$308.7 million Gross and \$162.2 million GF/GP. The total GF/GP impact is an increase of \$97.5 million.

Table 19

FY 2012-13 STATE BUDGET RECOMMENDATION ECONOMIC INCREASES INCLUDED IN BUDGET (Millions of Dollars)

Employer Retirement Contribution Rates

A significant financial aspect of the State budget, as well as the budgets of K-12 school districts and public community colleges, is the amount employers are required to pay into the retirement accounts of their employees. The Governor's budget includes the required employer contribution rates to the State Employees' Retirement System (SERS) and the Public School Employees' Retirement System (PSERS). Table 20 provides a three-year summary of the contribution rates for defined benefit pensions and defined contribution retirement for both systems. The FY 2011-12 and FY 2012-13 retirement rates for PSERS include the 3.0% employee health care contribution that is currently in litigation. The PSERS rates shown are the rates for employees hired before July 1, 2010; rates for employees hired on or after July 1, 2010, are 1.2 percentage points lower because those employees are part of the hybrid "Pension Plus" plan. Table 21 outlines the FY 2012-13 estimated contributions to SERS and PSERS. The total combined cost of the estimated employer contributions is \$4.2 billion.

The Governor's budget also recognizes the continuing issue of long-term employee compensation costs by focusing on what are referred to as "other post-employment benefits" (OPEB) provided to retirees. A major OPEB cost is for retiree health care, which the State is beginning to pay on a prefunded basis.

Table 20

RETIREMENT CONTRIBUTION RATES AS A PERCENTAGE OF PAYROLL				
	FY 2010-11	FY 2011-12	FY 2012-13	FY 2012-13 Change
<u>State Employees' Retirement System¹⁾</u>				
Defined Benefit Pension	23.98%	37.15%	23.94%	(13.21%)
Defined Benefit Health Care	13.40%	23.00%	23.60%	0.60%
Total Defined Benefit Costs	37.38%	60.15%	47.54%	(12.61%)
Defined Contribution Retirement	6.00%	6.25%	25.55%	19.30%
Defined Contribution Health Care	13.40%	23.00%	23.60%	0.60%
Total Defined Contribution Costs	19.40%	29.25%	49.15%	19.90%
<u>Public School Employees' Retirement System²⁾</u>				
Defined Benefit Pension	12.16%	15.96%	18.62%	2.66%
Defined Benefit Health Care	5.50%	5.50%	5.75%	0.24%
Surcharge Due to Injunction	3.00%	3.00%	3.00%	0.00%
Total Defined Benefit Costs	20.66%	24.46%	27.37%	2.91%
¹⁾ Public Act 264 of 2011 required the unfunded accrued liability to be spread across both DB and DC payroll. Also, FY 2012-13 will be the second year of prefunding retiree health.				
²⁾ Rates for employees hired before July 1, 2010.				
Note: The FY 2012-13 Total Defined Benefit costs for employees hired on or after July 1, 2010, are 26.14% of PSERS payroll.				

Table 21

FY 2012-13 ESTIMATED CONTRIBUTIONS TO TWO LARGEST RETIREMENT SYSTEMS	
	Millions of Dollars
<u>State Employees' Retirement System (SERS)¹⁾</u>	
Defined Benefit Pension	\$376.0
Defined Contribution	424.0
Health Care.....	<u>744.5</u>
Subtotal State Employees' Retirement System.....	\$1,543.5
<u>Public School Employees' Retirement System (PSERS)²⁾</u>	
Defined Benefit Pension	\$1,830.0
Health Care.....	<u>860.0</u>
Subtotal Public School Employees' Retirement System	\$2,690.0
Additional FY 2012-13 Estimated Cost Per Pupil.....	\$160
¹⁾ Public Act 264 of 2011 required the unfunded accrued liability to be spread across both DB and DC payroll. Also, FY 2012-13 will be the second year of prefunding retiree health. ²⁾ FY 2012-13 is the first of five years of additional payments for the Early Retirement Incentive Program of 2010, adding 2.66% of payroll costs.	

Debt Service Adjustments

The Governor's recommendation reflects an overall reduction of \$20.8 million in debt service costs below FY 2011-12 levels, as shown in Table 22. This amount does not include debt service costs for bonds issued to pay off Federal unemployment insurance loans. The increase in debt service costs for the school bond loan reflects additional costs related to refinancing. The reduction for State Trunkline bonds reflects actual bonding costs. The \$41.0 million planned for short-term Trunkline bonding was instead covered by long-term borrowing, which reduced the need for debt service appropriations. The adjustment for environmental bonds is based on the expectation of additional bond issuances in the 2012 spring and fall.
